DR. S. B. CALDWELL ANSWERS SUMMONS

Although He Had Been Feeble
End Was Unexpected

Sketch of Career of One of Paducah's
Best and Most Successful
Citizens.

GREAT TEMPERANCE WORKER.

Dr. Samuel B. Caldwell, 82 years old, one of Paducah's oldest and most substantial citizens, died Saturday night at 8:30 o'clock at his home, 2000 West Broadway, of influenza incident to old age. While he had been in feeble health the last several weeks, his death was unexpected, and he died at Saturday night after a short illness.

Dr. Samuel Caldwell was born November 2, 1824, in Henry county, Tenn. His parents were John L. and Myra (Morgan) Caldwell, natives of South and North Carolina, respectively. Dr. Caldwell's parents in 1825 moved to Callaway county, Ky. In March, 1834 he was brought to McCracken county where his parents resided until they died. To the parents were born eight children, one now surviving; Hiram R. Caldwell, a Methodist minister a resident of Mississippi.

Dr. Caldwell, first studied civil engineering, and was employed in this vocation in McCracken county. He later went to St. Louis and studied medicine under Dr. Van Zandt, a prominent physician. Later he attended a course of lectures in the University of Missouri and after his graduation became afflicted with eye trouble. A cure was effected through Dr. Van Zandt, and Dr. Caldwell took up the eye as a specialty, but after a few years entered on a general practice, which he continued 15 years.

Dr. Caldwell in late years had devoted his time to real estate. He was associated with the Messers, Norton, bankers and extensive land owners in this state and Texas, and under such favorable associations was enabled to accumulate valuable property. He leaves one of the biggest estates in western Kentucky. Although a man of wealth he made no showing of it, and lived a quiet life in a small yet comfortable home on West Broadway.

His only political activity was represented by two terms in the lower house of the general assembly.

Dr. Caldwell married Miss Elizabeth J. Napier, a daughter of John Napier, of Casey county, Ky., in early life. Three sons and a daughter were born to Dr. and Mrs. Caldwell, two sons dying in early manhood. The wife passed away in 1901 and the only heirs to the estate are Mr. Samuel B. Caldwell, Jr., the attorney, and Mrs. Mary Mallory. Both were at the bedside of their father when death claimed him.

Dr. Caldwell was a devout member of the First Presbyterian church. He was a temperance worker who had probably done more in this particular fight than any other person in Paducah. Dr. Caldwell when he organized the West End Improvement company, which practically built up the West End, insisted on the insertion of a clause in each deed by which the purchaser of property in the west end makes an iron clad agreement not to permit a saloon to be built on the property. This was done to insure that this locality should remain a desirable residence location. The fact that there are no saloons within a mile or two illustrates the success of the project.

Dr. Caldwell was a Royal Arch Mason.

The funeral took place this afternoon, the Rev. W. E. Cave, officiating. The active pallbearers were: S. A. Fowler, J. D. McQuot, J. A. Rudy, Gus Hank, A. Kirkland, G. C. Wallace. The honorary pallbearers were: T. A. Baker, D. A. Yelzer, John Cook, M. V. Cherry, W. J. Hills, G. B. Hart.

Firemen's Strike Settled.
Chicago, Jan. 7.—Interstate Commerce Commissioner Knapp announced today that matters had progressed so satisfactory towards a settlement of the strike of firemen on the Southern Pacific railroad at the conference held by the commission and the labor chief at 2 o'clock this morning, that no further conference will be necessary, unless some unexpected hitch occurs.

CITY CONFESSES JUDGMENT TODAY

For \$606.38 Taxes And Penalties Collected

Ayer-Lord Tie Company Wins An
Easy Victory in Circuit Court
Case.

MARKETMASTER SUIT HEARD

"Confessed judgment" is the entry in the suit of Ayer-Lord Tie company, against the city of Paducah, to recover \$606.38 taxes, interest and penalties assessed against the company during the pendency of the suit in which the right of the city to tax the company's floating property was tested in the supreme court of the United States. The company paid the tax under protest, and, after an adjudication of the question in which the federal court held against the city, demanded a refund. The city council and the mayor refused to pay. Suit was instituted a few weeks ago, and no defense was made to the action.

Marketmaster Case.
No decision was made today by Judge Reed in the case of J. E. Potter vs. Charles E. Bell, in which the former seeks to enjoin the latter from acting as marketmaster, and in which A. Franke seeks to enjoin A. Hundesman from acting as sewer inspector. The defendants were regularly elected by the general council and have qualified. The plaintiffs were appointed by the board of public works after the defendants had qualified. The case was submitted on briefs and will be decided this week probably.

WALKING WITH GOD.

Eloquent Discourse by the Rev. W. T. Bolling.

The Rev. W. T. Bolling's sermon last night at the Broadway Methodist church was on "Walking With God." It was an eloquent exposition of the text, "And Noah walked with God, and he was not for God took him" from Genesis and the reference in Hebrews to Enoch, not seeing death because by faith he walked with God. The sermon was replete with deep underlying spiritual truths and practical thought for the year. The quartette choir rendered two beautiful anthems. At the morning hour Dr. Bolling spoke on the "Sacriment," and made a most impressive talk to his congregation. It was followed by the administration of the Lord's Supper. Miss Julia Scott sang the offertory "Is It Well With Thy Soul?"

HOT LEGAL FIGHT.

Over Right to Close Up Man's Place of Business.

When James Soler, the Third street photographer, was sued and two judgments awarded, one for the Kramer Photograph company for \$107, and another for the Kroner Paper company, for \$84, Constable A. C. Shelton closed the place on an attachment gotten out by Bradshaw & Bradshaw, attorneys for the firms holding judgments. Soler, it is claimed, broke the lock Saturday night and entered the rooms. Soler claims that they may attach his goods but may not close his house, and is preparing to fight the case. The attachment was taken out in Magistrate Charles Emery's court.

Constable Resigns.

J. J. Lane, constable in the Fifth district, resigned this morning and B. E. Sears was appointed in his place. Sears had been a constable in McCracken county constantly for years until the last year.

Another Deputy Clerk.

Walter Smedley was this morning sworn in as a deputy clerk to meet with the county board of supervisors. He is a brother of County Clerk Hiram Smedley.

There is only one kind of a newspaper circulation statement that is worth any consideration and that is the daily detailed statement. The Sun is the only Paducah paper printing such a statement.

IN SUBWAY

IRVIN S. COBB WAS THROWN
AND SEVERELY HURT.

Little Bone in His Right Foot Broken
and Tendons Strained—Is
Confined.

Mr. Irvin S. Cobb, of the staff of the New York Evening World, is injured in New York, and will be disabled for some time, the result of an accident in the subway. News of his injury reached Paducah this morning. Mr. Cobb travels to the World office by the subway. The cars make a sudden stop and Mr. Cobb when near his station stood on the step preparing to alight. The car began to feel the brakes and a farmer became frightened and tried to jump off. Mr. Cobb attempted to hold him on, but was thrown off the car.

A little bone in his right foot was broken and the tendons of his leg badly strained. He will be able to be out in a few weeks, it is stated.

Mr. Cobb is the son of Mrs. Manie Cobb, of Broadway, and formerly was editor of the News-Democrat.

TAFT WILL GO TO SUPREME BENCH

New York, Jan. 7.—Secretary Taft is to succeed Chief Justice Fuller on the supreme court bench at an early date, according to a Washington dispatch to the New York Press today. President Roosevelt is quoted as saying, "Taft wants to go to the supreme court and that's where he will go."

Epiphany Sermon.

The Rev. David Cady Wright preached a beautiful sermon yesterday at Grace Episcopal church appropriate to the Epiphany season. His theme was the "Visit of the Wise Men to the Christ," and strongly enforced what that visit meant to the world today and how our lives should celebrate the event.

Serious Freight Wreck.

Wolcott N. Y., Jan. 7.—A freight wreck occurred on the Rome, Watertown & Ogdensburg railroad today near here and two men were killed and several others seriously injured, one of whom will die.

Clubs Will Evade Operations of New Ordinance Increasing Their License

Clubs and club rooms which operate buffets for the convenience of members and not for profit, feel that the taxation of a license of \$150, the same as retail saloons, is an imposition, and those not intending to close buffets will resort to a unique method in evading the tax.

"We do not intend to pay the city \$150 for a license to keep liquor in our club," a member of a well known club declared this morning. "There is a way to get around it. It is true that at present we have a regular buffet, but from now on we

SLEEPER BURNS

AND ONE PASSENGER IS KILLED
AND THREE INJURED.

Had Been Smoldering Some Time
and Smoke Suffocated Many of
the Occupants.

Cornell Bluffs, Ia., Jan. 7.—Louis De Laira, clerk of the house committee on irrigation, was killed and three persons injured early yesterday by a fire in a sleeping car attached to the east-bound Los Angeles limited train on the Chicago and Northwestern railroad. The injured are: O. H. Johnson, of Salt Lake City, slight burns on neck and head; Henry Cabrow, of Salt Lake City, right wrist cut by glass; Mrs. B. Higgins, of Cambridge, Pa., suffered from exposure. The Northwestern train got within a mile of Loveland, Ia., when the passengers in the Pullman car, Redfield, were aroused by smoke. The origin of the fire could not be determined, but undoubtedly had been smoldering for some time, as the car was filled with dense smoke, which suffocated the passengers.

SUNDAY SCHOOL

Teachers' Training Class Inaugurated
Tonight.

The initial meeting of the Union Sunday School Teachers' Training class will be held tonight at 7:30 o'clock at the parish house of Grace Episcopal church. The Rev. David C. Wright, who was elected superintendent of this work at the organization of the City Sunday School union, will have charge of the class. Mr. Wright is an enthusiastic believer in Sunday schools and is a vivid teacher of the Bible and will make the meetings of exceptional interest. He has studied methods of the work at the Winona Lake Assembly, where the noted Dr. Chapman is in charge.

Patrolman Changed.

Patrolman Singery was transferred from the Broadway beat to the Union depot at his own request, and Patrolman Souser stationed at Fourth street and Broadway.

Chinese Burned Out.

Bangkok, Jan. 7.—The Chinese trading quarter of Bangkok was devastated by fire. The estimated loss will reach \$3,000,000.

Love is one of the things that don't thrive on absent treatment.

OLD BOARD MEETS, NEW ORGANIZES

School Trustees Have Session
at High School

No Caucus Has Been Held and Polls
Will Not Enter Into
Affair.

SEVERAL ARE MENTIONED.

All the old and new members of the school board will meet tonight, the former to turn over, and the latter to accept the affairs of the board. The new board will proceed to organize after the old board steps out. It is known that no caucus has been held by the new members and the election tonight probably will be conducted aside from partisan opinions. Mr. U. S. Walston and Dr. A. List are mentioned for the position of president. There are several candidates among the members of the board for the secretaryship, but the rules forbid a member of the board holding the position. Mr. Beckenbach is mentioned as available, as his term expires tonight. Frank May, the incumbent, is a strong candidate.

TO FIRST STREET.

Hotel Belvedere Management Asks
for Street Cars.

Messrs. Charles E. Graham and Robert E. Moshell, proprietors of Hotel Belvedere, Second street and Broadway, have asked the management of the Paducah Traction company to run all street cars to First street and Broadway but Manager Blecker fears to interfere with the present schedule. The "loop" schedule has proven satisfactory and makes it possible to maintain a 10 minute schedule on Broadway; 12 minute schedule on Trimble street, 15 minute schedule to Rowlandtown, 12 minute schedule to Union Station, 20 minute schedule on Jackson street and South Sixth street and 10 minute schedule on South Third street. A petition is being circulated to be presented formally to the traction company asking that this be done away with and cars run to First street on Broadway.

HAWKINS' CAFE ASSIGNS.

Broadway Restaurant Turned Over
to Court for Creditors.

This morning in county court Charles F. Hawkins proprietor of the Unique Cafe and Restaurant, 217 Broadway, filed a deed of assignment to Attorney A. E. Boyd. He states in the deed that he owes individually and in the firm name of Hawkins Bros., numerous debts, which he cannot pay, and assigns all to Boyd for the benefit of creditors. Besides regular restaurant meals, candies and soda waters are served in the place. He was in partnership with his brother, Albert Hawkins until July, 1906, when they dissolved. He claims exemptions of \$200.

THREE ORDINANCE ARRESTS.

Ike Cohen, B. Wolfe & Sons, and James M. Lang Didn't Remove.

The struggle between the board of public works and Broadway merchants who object to compliances with new sign order, has begun in earnest, and three firms were cited today to appear before Judge Cross for failure to remove signs ordered down by the board. Their cases were continued.

Fine New Year Services.

Fine New Year's services were held yesterday at the Third street Methodist church the best in the history of the church. The Rev. Peter Fields' sermons both morning and evening bore on special phases of the Holy Spirit, and were strong and forcible and appropriate to the season. Much interest was evinced by the congregation, and the attendance was unusually large.

WEATHER—Rain with colder tonight. Tuesday clearing and colder. The highest temperature reached yesterday was 67 and the lowest today was 58.

COUNCIL BEGINS ITS LIFE TONIGHT

H. R. Lindsey Picked For The
Presidency Lower Board

Apportionment Ordinance Must Be
Passed in January—Licenses
Being Secured.

SALOONS MAKE APPLICATION.

Paducah's city hall presents a busy scene today, with preparations for the incoming general council, the line of people paying their licenses for the new year to Treasurer Dorian and taking out their papers and tags from Inspector Lehnhard and Auditor Kirkland, the busiest man in the city, completing his annual reports. The mayor's message will not be delivered to the new board of councilmen at the meeting tonight. All the reports are not in and Mayor Yelzer requires some statistics to finish his recommendations.

The old board of councilmen will be called in special session preceding the installation of the new board to conclude its business.

It is probable that H. R. Lindsey will be elected president of the lower board tonight, while the aldermen will fight it out between Alderman Earl Palmer, Republican, and Alderman-elect Ed Hannan.

The first duty of the new council will be to pass the apportionment ordinance. For this purpose, no doubt, the presidents will get busy on their committee assignments without delay. The apportionments must be made in January. The tax rate will be delayed, probably, until March, in order to permit the board of tax supervisors to complete their work adjusting the assessment.

Tax Books Supervisors.
The board of tax book supervisors got down to work this morning by electing W. H. Holland, chairman, and J. A. Glander, secretary. Mr. Eli G. Boone is the only private on the board. They will be engaged about six weeks on the books.

Licenses Taken Out.

Probably all the liquor dealers will have their applications before the board of councilmen tonight, and among them are three in locations, which were rejected by the old general council. These have their notices posted. They are Barney Padgett, Thirteenth and Clay streets; A. Denker, Jr., Eleventh street and Broadway; H. H. Evans, Twelfth and Trimble streets.

Many other saloonkeepers have paid their license fees, and 40 market house renters paid up Saturday.

SPRINGLIKE DAY.

Enjoyed by Hundreds, Who Walked and Rode Outdoors.

But for the clouds Sunday would have been an ideal spring day, and notwithstanding the threatening weather large crowds of pedestrians were out and the deliverymen did a big business.

The temperature began to rise from Saturday morning, and by night was pleasant. Overcoats were discarded and Sunday morning the weather was even milder. The river attracted many hundreds eager to see how high the water had risen. This morning the temperature remained high and it is sufficiently warm to recall spring.

PROF. SCHRIEVES

Makes Excellent Address at Opening of High School.

This morning the public schools opened for the second week in the New Year with an excellent attendance, and the work is progressing nicely. Pupils are greatly interested in the coming "tests" to be made at the end of the term, and while it is not required, many are preparing for them, doing review work of their own accord.

The opening address at the High school this morning was made by Prof. C. H. Schrieves, master of science, and it was very greatly appreciated. Prof. Schrieves is popular with the pupils, and his subject is one of general interest in the schools.

HAPPY NEW YEAR DEPENDS ON SELF

Rev. W. E. Cave Discourses
On "New Future"

Things That Lie in the Heart May
Not Be Bought Nor Made
By Art.

TO ENJOY FRUITS OF CANAAN.

"Whether the new year will be
profitable and happy to you depends
on what you bring into it."

This was the central thought in the
New Year's sermon preached by the
Rev. W. E. Cave at the First Presby-
terian church yesterday morning.

His text was:

"And they did eat the fruit of the
land of Canaan during the new year."

"Happiness," suggested Dr. Cave,
"lies in the heart. Many a man
builds himself a grand mansion, fur-
nishes it with all the elegance and
comfort that art and money can af-
ford, and moves into it, hoping to
find rest and peace and happiness.
But money cannot buy it and art can-
not make it, and the man must take
happiness into the home in himself."

"A new future," he said, "is the de-
sire of the one who has failed and is
despondent. He wishes to begin
anew. He hopes that when he reaches
his Canaan, his promised land, that
he may eat of the fruits, which seem
to be waiting there. But his propa-
riety and the state of his heart and
mind will have all to do with enjoy-
ing the fruits of Canaan."

Dr. Cave illustrated his sermon
with apt references to incidents of
history and biography.

Mack-Leone Company.

Willard Mack and Maude Leone,
who open a four night's engagement
at The Kentucky, are supported by a
company selected from stock houses
of Chicago. In the cities and towns
where they have played the press
has been loud in praise of this com-
pany. They are different from the
usual travelling stock companies, in-
asmuch as they produce no "blood
and thunder" plays, carry no specia-
ties, but produce a high class stand-
ard comedy and drama. Those who
see the production on Monday night
will say that this company is at least
as good as the average. The opening
bill tonight is "Madam Satan." Miss
Leone who is considered one of the
most beautiful of women, is particu-
larly strong in this bill and during
this engagement will wear a most
pleasing array of gowns.

The Girl and The Bandit.

"The Girl and The Bandit," given
at the Lyceum last night, proved to
be the one real musical treat of the
season. It is a comic opera, one of
the real sort, the book by Mrs. A. C.
Tyler and music by Frederick Colt
Wright. The piece was first brought
forward under the title, "A Venetian
Romance," some five years ago,
but was put through a trimming
down and weeding out, and when it
emerged, or rather when it was
brought forth revived and improved,
it bore all the ear marks of having
been dipped into a regular fountain
of youth and was so rejuvenated, so
strengthened and so much better
than the first musical child, the origi-
nal "Venetian Romance," that a new
title was deemed meet and proper,
and it was christened, or rather re-
christened, and given the name it
still bears.

When the "Girl and The Bandit"
first found favor in the larger cities
the presenting cast included Jo My-
ron, Nell McNeill, Alice Dovey, Viola
Gillette and George McFarlane, the
latter two being the mainstays of the
company which gave it at the Lyce-
um last night under the direction of
genial, good-natured Hugh A. Grady,
a prince among theatrical men.

Miss Gillette is a composition of
the best alloy. She always makes
good. Whether as the girl, whether
creating such roles as Charming in
the "Beauty and the Beast," whether
in "Mother Goose," in any of the
big E. & E. productions or amidst
less elaborate environments, her real-
ly rich voice is always a delight and
the perfect outlines of the physical
woman as well as the natural
poses stand out quite as well through
the opera glass as the voice is pleas-
ing to the ear.

Those who were at the Lyceum
last night went into raptures over
the singing of George McFarlane.
His rendition of "A Venetian Rose"
and the "Summer of Love" songs
evoked the most favorable criticism.

The comedy of "The Girl and the
Bandit" is furnished by Leonl Pam,
William Sellery and Sam Miley, and
they shoulder what falls to them and
fairly walk away with it. Miss Pam,
a dainty bundle of femininity a lit-
tle larger than Toby Claud, and not
quite so big as Anna Held, meets all
the requirements of a full sized com-
edienne.

William Sellery is what the gal-
lery gods term a humorous
cuss. His looks and gen-
eral appearance are truly comical,
and his rich bass voice helps him
along.

Sam Miley does the millionaire
Irish contractor up brown. Others in
the cast are Ora Russell, Frederick
Knights, Blaise Mallette, Nellie Dow-
dall, W. H. Thompson, Jean Reid
and a bunch of dancers, chorus girls
and boys.

"The Girl and the Bandit" is
splendidly mounted. It has suffered
nothing from a lack of attention to
detail. The two scenes represent a
carnival night in Venice and the
bandit's retreat in Austrian Tyrol.
—Memphis Commercial-Appeal.

Henrietta Crossman.

Fortune seems to have taken a
new liking to Henrietta Crossman,
who made a happy appearance at
Powers' theater last night in a new
English comedy, "All of a Sudden
Peggy." "All of a Sudden Peggy"
differs little from last season's play,
but the new vehicle, which was writ-
ten by Ernest Denny, is a vastly bet-
ter entertainment, and the large au-
dience at Powers' last night approv-
ed the proceedings from first till
last. The play gives Miss Crossman
ample opportunity for the display of
those personal traits which endear

her to the public. The chief charac-
teristics of this Peggy, whose im-
pulsiveness wins her a descriptive
sobriquet and leads her into numer-
ous complications, are her lack of
consideration for the conventional-
ities, a certain arch roguesness, glib-
ness and an inclination to bungle
her own love affair. All these traits
find pleasing expression in Miss
Crossman's acting, in which there is
both exuberance and finesse. She has
the support of a very good company
of players.

All of a Sudden Peggy, Irish, of
course, like Mary and Kitty Bel-
lulra, and all the rest of the Crossman
heroines, is Peggy O'Mara, the daugh-
ter of the widow of a professor
whose specialty was spiders.

Frank Gilmore is the Hon. Jimmy,
and he is admirable in the part
when he does not murder it with an
uncalled for display of grandilo-
quence, as he does in the first act.
Ernest Stallard, a very good charac-
ter actor, who has been seen here
with E. S. Willard in former seasons,
is the Lord Crackenthorpe. He lends
to the part quaintness of manner, a
sort of quizzical erudition, and, in
the lord's nmatory affairs, amusing
confusion of mind. His frequent pip-
ing out of "Why not? Why not?" ap-
pealed to the audience as being the
most humorous thing in the play, and
the audience probably was right. Ida
Waterman appears as Peggy's moth-
er, Kate Meek is Lady Cracken-
thorpe, and J. R. Cranford is Lady
Crackenthorpe's brother. Each of
these roles is very well played. Addi-
son Pitt, John Marble, Jane Mar-
bury and Ann Warrington are effi-
cient in smaller parts. —Chicago
Journal.

Mr. Christopher McMahon, the
well known double bass-tuba player,
left Sunday morning at 3:45 o'clock
for Baton Rouge, Ala., to join Don-
nelly and Hatfield's minstrels and
will play the remainder of the season
with this troupe. He has been play-
ing with The Kentucky orchestra.

NEW YORK LETTER.

New York, Jan. 7.—Frederick
Thompson, who must inevitably have
been an infant phenomenon
were it not that he was saving up his
brilliant talent until the approach of
his majority, has once more aston-
ished the metropolis by the exhibi-
tion of a new phase of his amazing
versatility. This is the Mr. Thomp-
son who is the senior member of the
firm of Thompson & Dundy, the re-
generators of Coney Island through
the building of Luna Park, the or-
iginators and constructors of the vast
and stately Hippodrome, the promot-
ers of Varsity Fair—the latest and
most novel of summer amusement
resorts—and the Lord only knows
what all else hitherto untold in the
world of entertainments on a colos-
sal scale. It was this Mr. Thomp-
son who drew the plans and super-
intended the execution work of Luna
Park, whose next architectural ac-
complishment was the uprearing of the
Hippodrome after his own drawings,
where the marvelous show pieces
were prepared under his own direc-
tion and whose shrewd foresight caus-
ed the gathering in by the firm of
Thompson and Dundy of the Varsity
Fair quarters away up on the apex
of Fort George Heights. As though

at this was not sufficient accom-
plishment for a man of thirty-six or thirty-
seven. Mr. Thompson next placed
himself upon record as the author of
an adaptation of the McCutcheon
novel called "Brewster's Millions,"
and this adaptation (which cannot
be described as a mere dramatization
for the reason that it is filled with
original matter) had its New York
opening at the spacious and beau-
tiful New Amsterdam theater on Mon-
day evening. The previously un-
announced arrival of Richard Mansfield
at this establishment upon an early
occasion will necessarily cut short
what otherwise might have been a
protracted stay for the "Brewster"
comedy drama in this city. Briefly,
it describes the adventures of a
young man whose eccentric uncle
leaves him seven million dollars with
the sole proviso that he shall spend
one million dollars in the first year
of his heirship without resorting to
gambling, or wild excesses of dissipa-
tion, or the other usual methods of
"blowing 'n' large fortunes. Upon
this basis of suggestion there has
been built a varied and interesting
structure of episode, humorous, sen-
timental and dramatic, and the work
has been accomplished with all the
consecutive skill made evident in the
dramatist's earlier triumphs in the
field of architecture. The principal
member of the admirable cast pro-
vided for work of interpretation is
Edward Ables, who this time takes
advantage of his opportunity to step
out of the ranks of "promising" ac-
tors, of whom there are many, and as-
sume an important position among
the might few who have "made
good." Scenically the production is
both handsome and fitting.

William Collier, back from Aus-
tralia and a double transcontinental
tour, is at the Garrick with a fresh
and brisk comedy made partly by
himself and partly by Grant Stewart,
called "Caught in the Rain." Of
this lively piece of diversion it may
best be said that Mr. Collier sticks
out all over it, not only as a player
of the chief role, but also by reason
of the succession of witticisms which
are obviously of his own manufac-
ture, since all of them are thoroughly
characteristic of his own personality.
Loosely outlined, the hero of this
farceful comedy is a young man who
cherishes a mortal terror in the pres-
ence of members of the other sex.
His gallantry, however, triumphs
over his trepidation to the extent of
leading him to shield beneath his um-
brella a young woman whom he en-
counters in a driving shower and
with whom he immediately falls in
love, ultimately to win her after
clearing numerous obstacles. There
is a great deal of intensely amusing
matter in the twist and turns of the
story. Both Collier and the comedy
have "won out" unanimously and
will remain indefinitely to throng
the Garrick.

"The Road to Yesterday," at the
Herald Square theater, is an obvious
attempt to take advantage of the ex-
traordinary popularity of "Peter
Pan," for it not only deals with a sort
of fairy topic, but the management
uses it as its advertising slogan the
line: "Do you believe in dreams?"
which is a shoe and a wanton piece of
unimprovement of the "Peter Pan" inquiry.
"Do you believe in fairies?" With
these facts in mind, "The Road to
Yesterday" is about what might be
expected—that is to say, it is lack-
ing in the grace, the consummate
literary finish and the originality of
treatment bestowed by Dr. J. M.
Barrie upon his delightful tale of the
elves as portrayed by Maude Adams
and her associates.

It was a vociferously expressed,
but none the less true welcome that
was accorded to Blanche Bates on
Monday evening at the Academy of
Music, where she began a limited en-
gagement in David Belasco's "The
Girl of the Golden West," support-
ed by the members of the original
Belasco cast. The scale of prices at
the Academy is not as high as the
Broadway rate, and this fact enables
a large part of the community to wit-
ness sundry first-class productions
who cannot afford the more costly
luxury of the "production" theaters.
But this condition does not entirely
account for the size of the audiences
drawn to the Academy by Belasco's
star, for there is every night strung
out in Irving Place a long procession
of private equipages showing that
"society" is turning toward the Aca-
demy portal as surely as the class
that is merely well-to-do. This may
be regarded as a strong compliment
to Miss Bates and the Author-Man-
ager of her play, because it is a situ-
ation that doesn't arise as a general
thing.

The Brady-Grismer production of
George H. Broadhurst's political and
social drama, "The Man of the
Hour," bids fair to have a long period
of possession of the Savoy theater,
where it has already entered upon
its second month.

LUMBERMEN WILL ASK FOR RECEIVER

Hill Roads Compared With
Pennsylvania System

Claim They Are Losing Millions By
Reason of Lack of Facilities
of Lines.

SOME FIGURES ARE MENTIONED

Chicago, Jan. 7.—The lumbermen of the Pacific Northwest are going to try to put the Northern Pacific and the Great Northern railroads, which are known as hill properties, into the hands of a receiver and to swap them with more than 1,000 damage suits aggregating more than \$15,000,000. This fact was made known yesterday by Victor H. Beckman, secretary of the Pacific Coast Lumbermen's association, in a speech denunciatory of railroads made before the national reciprocal demurrage convention. Having revealed the program which the lumbermen have conceived against the hill roads, Mr. Beckman, as chairman of a committee of seven, started for Washington to ask President Roosevelt to send a special message to congress insisting on a reciprocal demurrage law.

Mr. Beckman came all the way from Seattle to tell his story of alleged wrongs which the railroads are heaping on the shippers' heads in the way of car shortage and delayed movement of freight. His train was 29 hours late, he ran into two wrecks and into several snow slides and admitted he did not arrive in good humor.

Talk on Receivership.

Mr. Beckman's remarks on receiverships and damage suits met with hilarious applause from the convention. This is what he said:

"Our present car shortage has lasted 13 continuous months, and I tell you frankly that some of our people are going out of business, not voluntarily, but by aid of the sheriff and we are up against it real hard. We are up against the proposition so hard that we have joined issues.

He will show that of the 5,920,000 people moved by the Northern Pacific last year 2,600,000 originated in the state of Washington, and that of the 15,000,000 tons of freight moved by this road there were 7,135,000 originated in the same state, and that 42 per cent. of the gross earnings of the Northern Pacific and of the Great Northern comes from the lumber industry of the state of Washington alone, an industry which, he claims, the railroads are trying to kill.

Other Facts to Be Given.

He expects to show that the Great Northern has one locomotive for every seven miles where the Pennsylvania has one for every mile and a half, and that with earnings one-half as great as those of the Pennsylvania the Northern Pacific has 36,000 cars, where the Pennsylvania has 218,000. When he has done all this he expects the president will hurry a special message to congress asking for the passage of a bill which will relieve the situation.

A Wonderful Happening.

Port Byron, N. Y., has witnessed one of the most remarkable cases of healing ever recorded. Amos F. King, of that place says: "Bucklen's Arnica Salve cured a sore on my leg with which I had suffered over 30 years. I am now eighty-five." Guaranteed to cure all sores, by all druggists, 25c.

City of Panama Lands.

San Francisco, Jan. 7.—The report that the City of Panama had foundered was set aside Saturday by the sighting of that vessel as far from shore could be seen through the fog.

Trembling women and children staring at the bulletin boards went wild with joy later when the positive news of the safe arrival of the much-hoped for vessel was prominently posted.

The vessel has been in distress for the last three days lent more terror to the populace.

Daily Thought.

"There are more virtues in one
sunbeam than in a whole atmosphere
of cloud and gloom."

JUDGE BREATHITT AT HOME.

Political prophets must not be
without honor at home. The man
who "cannot carry his own ward,"
is usually short lived. Judge James
Breathitt, of Hopkinsville, is not of
this sort, and the Hopkinsville Mes-
senger has the following to say re-
garding him as a gubernatorial possi-
bility:

Not long since, as we were
walking down the street, we met
a lady, who, having noticed the
discussion among the Democrats,
remarked, "Why don't you Re-
publicans get together next year
and wipe out the entire ma-
chine?" Well might the Republi-
can party ponder this. Why
don't we?

Unfortunately for us we have
too many contending elements
in our own ranks.

The Messenger believes that
we have a grand opportunity to
redeem the state from the op-
pression of machine Democracy.
We believe that the outrageous
tax laws by which the poor poll
tax payer is raised from \$1.50
to \$5.13 in thirty days could be
repealed. But to do it means to
"get together."

To get together we must get
a popular statesman for govern-
or, one who belongs to no fac-
tion, an orator, a modest man
of pleasing address, one that has
many friends and no enemies.
A man who makes friends where-
ver he goes, a lawyer of splen-
did ability a man that respects
the rights of the people, as
against the machines and the
grafters.

That man we have among us,
nominate him and the next gov-
ernor of Kentucky will be a Re-
publican with an absolute cer-
tainty.

The Messenger is for the Hon.
James Breathitt, of Christian
county, for the Republican nom-
ination for governor.

Some objection has been made to
THE SUN's reference to a "deficit"
in the city's funds, on the ground
that it does the retelling general
council injustice. Our only excuse is
that there is a deficit apparent on
the final balance, and THE SUN
must call a spade, a spade. It is true
that the general council paid off an
inherited deficit of some \$9,000;
that a deficit already existed in the
hospital fund, and it is perhaps
equally true, that had it not been
for the purchase and installation of
the equipment for the lighting plant,
and the big overdraft the board of
public works created in its funds,
there would have been no deficit;
but thus far we have only been re-
ferring to the matter incidentally.
When we get hold of the annual re-
ports we will have something to say
about "the deficit," anon. However,

we may say this, the equipment of
the lighting plant was economically
purchased, and while it apparently
cost the board of public works over
\$100 the light to install the new
ones, and while as a general prin-
ciple we think a board should always
consider how much money it has ap-
portioned to its department and gov-
ern itself according; yet, probably
the board of public works may be
able to show for the big overdraft it
created, permanent public improve-
ments that will justify its course.

Efforts of societies, such as Israel
Zangwill, the Jewish leader, repre-
sents, are furthering the policy of the
national administration in directing
immigration rather than discouraging
it and exercising federal powers to
select desirable citizens. Instead of
prohibiting their entrance, Zang-
will's idea is to bring Russian Jews
into the country by way of Galveston
instead of New York. He aptly puts
it that to the "immigrant New York
and America are synonymous." One of
the great objections to immigration
arises from a superficial observation
that foreigners colonize in our great
cities and there perpetuate manners
and customs foreign to our habits and
ways of thinking. They do not be-
come assimilated, but fall prey to
political ward healers, and breed a
race of anarchists. Our ancestors
were immigrants. The Mayflower
was the first immigrant ship. We have
an abundance of room for the op-
pressed of all nations, but not in our
"ghettos." The room is in the wide
country, and the scattering of immi-
grants so that they may fall under
the influence of American social cus-
toms and conditions is the great
problem which we must set about
solving.

Much false deduction is indulged
in concerning the statement of an
Indiana traction president, who ac-
knowledged that he is not earning
the large salary paid him. There are,
it is true, controlling heads of great
institutions that vote themselves ex-
orbitant salaries and practice econo-
mies in the hire of the workers; but
generally it may be said, the ac-
knowledgegement of an employee that
he is receiving too large a salary, is
not the one for a reduction in wages,
but a cue for the entrance of his
successor. There is no limit to the
amount of money a man earns, ex-
cept his own capacity. There may be
a limit to the amount his employer
is justified in paying him, based on
the income of the business, but the
amount a man earns and the value
of his services depend on himself.
The Indiana traction company evi-
dently needs a president and general
manager who can earn the salary.

Oregon has taken a decidedly ad-
vanced step in the extension of the
scope of the unwritten law. A wife
murderer was given a life sentence
there, because the jury considered
the unwritten law in the particular
case. Fortunately, none of the older
states have yet gone so far as to give
a man the power of life and death
over his own family, but persistence
in the creed of the unwritten law, as
enunciated by fee-hungry criminal
lawyers, will eventually bring us to
this. We have this consolation that
such abuses always effect their own
cure by reaction. Some day the un-
written law will be stretched too
far, and then—some day help may
be stretched.

Late stockholders in the Union
and Southern Pacific railroads have
enjoyed the benefits of an impres-
sive lesson on the difference between
deferred dividends and deferred in-
formation.

After personal investigation Sec-
retary Wilson assures the distillers
that the pure food law will not in-
jure Peoria whisky. No, nothing
could injure Peoria whisky.

Every system must have a head,
but it was a mistake for the Bal-
timore & Ohio employees to think that
the block system required the col-
laboration of a block head.

It ill becomes the fellow, who
throws banana pebbles on the side-
walk, to talk about the "reckless
disregard" of the chauffeur.

He Shook Hands.

Senator Long of Kansas, comes
from the rural districts and was
rather diffident when he went to his
first big reception in Washington, at
the home of Senator Atkins, says
the Saturday Evening Post.

Mrs. Long tried to step him down
the line and succeeded admirably.
When they had shaken hands with
everybody Long mopped his face and
said: "Well, my dear, I guess I got
through that all right, and I think
I knew everybody with one exception.
Tell me, who was that man at the
end of the line with whom I shook
hands."

"That," Mrs. Long replied freez-
ingly, "was the butcher."

Teacher (severely)— "What are
you laughing at, Willie?"

Small Willie— "Please ma'm, I
wasn't laughing. My face slipped."

ON TRUCK

NEGRO BABY WAS BORN EARLY
SUNDAY MORNING.

Illinois Central Hawkins Will Be
Style of Christening of
the Child.

The local Illinois Central railroad
baggage room was at 1:50 o'clock
converted into an emergency hospital
at 1:50 o'clock Sunday morning and
as a result the road has a namesake
in the seven pound negro boy baby
born in it at that hour.

When the fast flyer, No. 104, from
Memphis to Louisville, pulled into
the station. There was a hustle and
hurry within the train, but every
passenger in the colored department
gave way for a physician and woman,
who was half carried from the train.
The doctor was a negro, James Tay-
lor, of Mayfield, and the woman was
Olive Hawkins, of Mayfield. The
woman was assisted to the baggage
room and a truck served admirably
for a bed.

The woman's condition would not
permit her leaving the city, and with
the physician in charge, she was tak-
en to a residence on the north side
in a cab. She was en route from May-
field, where she hurried her husband
Saturday, to Nashville to reside
with relatives.

The child's name shall be Illinois
Central Hawkins, officials at the de-
pot declare as the mother stated
that she would honor the road with a
namesake.

Thinking Clubs.

"Thinking clubs" are being organ-
ized in Springfield, Mass. It is a
movement representing a wholesale
reaction. There are altogether too ma-
ny talking clubs and too few think-
ing clubs. In the Springfield club the
thinkers think out loud, but their
thoughts never get into the newspa-
pers, which, we fear, will make
them unpopular with many persons
of light and leading who see no good
in anything which doesn't lead to
publicity. For them the old line is
true, "Thinking is but an idle waste
of thought," and they do not waste
much of it. There are a number of
Massachusetts citizens and anti-im-
perialists who would look interesting
playing a thinking part. A "thinking
club" is just the place for them. —

Excelsior.

The shades of night were falling
fast, but the Alpine villagers could
still make out the strange devtee
which the youth bore, 'mid snow and
ice.

The maiden, however, misunder-
stood him completely, surmising that
he was introducing a new breakfast
food.

"Is excelsior really any better than
sawdust?" she asked, wishing to
strike up a conversation with the
handsome stranger.

And she never could understand
why he swept haughtily on, with his
eye flashing like a falcon.—Life.

mainder of the journey.

RAINFALL

FOR THREE YEARS COMPILED IN
REPORT OF CAPT. BORNEMAN.

Paducah's Wharf Higher Than Pad-
ucah's, But It Is on the Second
Story of Town.

Paducah's exact geographical lo-
cation may not be known to many
persons. It is 37.5 latitude and 88.37
longitude. Elevation above the sea
level, 341.6 feet, at the top of the
wharf. Cairo's wharf is 18 feet high-
er than Paducah though Cairo prop-
er is lower than Paducah. Official re-
port of the rainfall here for 1906, ob-
servation by Captain William Borne-
man, government observer, shows a
rainfall of 50.1 inches. In 1905 the
rainfall was 43.91 inches, 6.19 in-
ches less than in 1906. In 1904 the
rainfall was 38.59, 11.51 inches less
than in 1906. And in 1903 the rain-
fall was 33.86, 16.24 inches less
than in 1906, showing that the rain-
fall last year was unusually large.

INCREASE

IN RECEIPTS OF THE PADUCAH
POSTOFFICE LAST MONTH.

Both Month of December and Quarter
Show Significant Gain Over Pre-
ceding Year.

An increase of \$436.23 was made
in December, 1906, over December,
1905, in receipts at the Paducah
postoffice, and Postmaster Frank M.
Fisher is pleased with the excellent
showing. It indicates the admirable
handling of business by the local
postoffice clerks, and the increased
prosperity in Paducah.

The postoffice report for the last
quarter, including the months of Oc-
tober, November and December, 1906,
show receipts, \$16,549.43, an in-
crease of several hundred dollars
over the last quarter in 1905.

The report for the last month
shows:
December, 1905.....\$5,456.16
December, 1906.....\$5,891.39

MARINE ENGINEERS

Elected Officers and Named Delegates
to Convention.

Messrs. J. H. Flisch and C. M.
Johnson, delegates from the local
Marine Engineers' association, will
go to Washington, D. C., in ten days
to attend the National Engineers'
convention January 21. They were
elected delegates in the annual elec-
tion of officers the last week in De-
cember. At that meeting J. H. Flisch
was elected president; H. C. Warden,
vice president; J. L. Weston, treas-

urer, and J. B. Flisch, secretary and
business manager. The association
now has 98 members and three ap-
plications for membership are being
passed on, which will run the mem-
bership over the hundred mark.

Pure Blood is Essential to Good Health.

Dr. A. T. Still, the discoverer of
Osteopathy, stated many years ago,
that perfect circulation of blood con-
taining the proper food elements for
tissue nourishment was absolutely
essential for the maintenance of
health, and all researches along bac-
teriological lines have proven with-
out doubt the fact.

Perfect circulation is dependent
on normal structure. As long as the
different parts of the human organ-
ism are in proper relation to each
other, and we observe the laws of
Nature, the arteries and veins will be
unimpeded and the blood circulate
freely.

Pure blood is the best germicide
known. Germs and their ill effects
will disappear from the presence of
pure blood.

The dry, hot-air treatments that I
give, in connection with Osteopathy,
restores the circulation to its normal
condition, and improves and stimu-
lates the blood. I have had marked
success in its use with people in Pa-
ducah you all know well, and to
whom I can refer you if you wish evi-
dence of the fact.

The treatment is successful in all
cases of stomach and liver disorders,
nervous conditions, rheumatism,
nervousness and chronic headaches.

a simple remedy for liver trouble and biliousness

The liver is a wonderful organ, always at work filtering, purifying and manufacturing ingredients necessary to life. It is the central laboratory of the body. It plays the part of a natural poison antidote. The poison contained in the decomposing food and waste of the body are arrested by it and rendered harmless. The liver is the seat of manufacture of bile, a fluid that keeps sweet the intestine and aids to digest food. Healthy bile is an antiseptic and when deficient or absent the contents of the bowels become putrid and full of poisonous matter. You can always keep your liver in a healthy condition by using Dr. Edwards' Compound Dandelion Tablets or Pills. They act directly upon the liver and produce a healthy flow of bile.

THE JOY
Of living is to have good health. Use Herbine and you will have bushels of joy. You need not be blue, fretful and have that bad taste in your mouth. Try a bottle of Herbine, a positive cure for all liver complaints. E. Harrell, Austin, Tex., writes: "I have used Herbine for over a year, and find it a fine regulator. I gladly recommend it as a fine medicine for Dyspepsia." Sold by all druggists.

Before giving advice prepare to dodge the consequences.

If you tire of buckwheat, try Mrs. Austin's famous Pancake flour. Made from the great food cereals.

We Use the King of All Bosom Ironers.—Why?

- First—Because it irons smoothly, not rough.
 - Second—The button holes or stud holes match.
 - Third—Negligee shirts with buttons are ironed perfectly and without injury.
 - Fourth—It irons either stiff or plaited bosoms like new, and the "hump" so often seen is missing.
- No other like it in West Kentucky. Satisfy yourself by sending us your laundry.

New Regulation Requires Soldiers to Stand at Attention When

NATIONAL ANTHEM IS PLAYED.

Washington, Jan. 7.—The Ninth and Tenth cavalry and the Twenty-fifth infantry, including all the negro soldiers in the regular army in this country, have been ordered to prepare for service in the Philippines, and will sail at different times between March 5 and June 5 of this year. The only other regiment composed of negroes, the Twenty-fourth infantry, is now doing service in the Philippines.

Other troops ordered to the Philippines are the Sixth cavalry and the Eighteenth, Twenty-sixth, Twenty-ninth and Thirtieth infantry. The troops which will be relieved by the sending of these new regiments will be the Fourth, Seventh and Eighth cavalry and the Ninth, Thirtieth, Fifty-sixth, Sixteenth and Nineteenth infantry.

National Anthem.

The army regulations have been amended so as to provide that whenever "The Star Spangled Banner" is played by the band on a formal occasion at a military station, or at any place where persons belonging to the military service are present in their official capacity, all officers and enlisted men present shall stand at attention, and even if not in the ranks they shall render the prescribed salute, the position of the salute being retained until the last note of the national air.

It also provided that the same respect shall be observed toward the national air of any other country when it is played as a compliment to official representatives of such country. Whenever the "Star Spangled Banner" is played, as contemplated by the army regulations, the air will be played through once without the repetition of any part except such repetition as is called for by the musical score.

Long Live the King!

Is the popular cry throughout European countries; while in America, the cry of the present day is "Long live Dr. King's New Discovery, King of Throat and Lung Remedies!" of which Mrs. Julia Ryder Paine, Truro Mass., says: "It never fails to give immediate relief and to quickly cure a cough or cold." Mrs. Paine's opinion is shared by a majority of the inhabitants of this country. New Discovery cures weak lungs and sore throats after all other remedies have failed; and for coughs and colds it's the only sure cure. Guaranteed by all druggists. 50c and \$1.00. Trial bottle free.

LOST 6,000 BUSHELS.

Col. R. H. Noble Feels Effects of the High Water on Farm.

Twenty-four hundred dollars is the loss sustained by Col. R. H. Noble in wheat through the heavy rains of last week, and it is doubtless the heaviest loss sustained by any one in this section of the country. Seven hundred acres of wheat were submerged and the grain ruined. Col. Noble went down to his farm which is located a few miles south of Paducah on the Cairo road, and found it a vast stretch of water the day after the rain ceased. The creeks had overflowed their banks sending volumes of water over the land. His wheat was no where in sight, and he realized it meant a total loss. He had prospects of 6,000 bushels of the grain.

White Man Runs Amuck.

An unknown white man insulted a waitress at Whitehead's restaurant Saturday evening at supper and then knocked down a negro waiter who came to serve him. Walking out he was lost in the crowd, but was later pointed out to Patrolmen Cross and Johnson who gave chase. The man jumped the fence between Washington street and Kentucky avenue on Fourth street and escaped.

NATURE TELLS YOU.

As Many a Paducah Reader Knows Too Well.

When the kidneys are sick, Nature tells you all about it. The urine is nature's calendar. Infrequent or too frequent action; Any urinary trouble tells of kidney ills.

Doan's Kidney Pills cure all kidney ills.

Paducah people testify to this.

Mrs. M. S. Smith residing at 323 Jefferson street, Paducah, says: "I have complained of kidney complaint for a number of years. It dates back to 1884. I suffered with a very distressing weakness of the kidneys which annoyed me day and night. There was often a dull pain across my back over the kidneys. It was these complaints which induced me to get Doan's Kidney Pills. After taking the treatment for a short time I noticed a great change in my condition and the improvement continued steadily. I feel better than I have felt for a long time. Doan's Kidney Pills are an excellent remedy and it is a pleasure for me to recommend them."

CHEAP LOW PRICED SMALL HOMES

Near city, fertile, high, dry land, in best neighborhood; Have just platted into lots of about five acres each the 240 acre (Williams) tract; Joining the Pines lands on west. Bounded next to city by Perkins Creek and Pines lands between, Buckner Lane Road and Hinkleville Gravel Road. Has 4138 feet frontage on Buckner Lane Road, said road just graveled in front of this land. Has 757 feet front on Hinkleville Gravel Road, and plat gives 40 feet cross roads through the tract, so that each and every lot fronts either on these gravel roads or these newly opened roads. Most of the lots front at each end on these roads. No nicer land in McCracken county. The 20 acres front on Hinkleville road has nice grove of forest trees on it and lays so as to make ideal residence sites.

Price on the Hinkleville road front is \$100.00 per acre, of which \$10 acre cash and balance in monthly or quarterly payments running five years. All other lots \$65 acre on same terms. While these prices are uniform, there is difference in desirability of lots and first customers get choice. Come and see plat and list men who have taken dozen lots before I could get the parcels staked off. For home or investment lots you lose opportunity if you fail to take this. On one lot is new 5-room house which is priced at \$800 additional to cost of land at \$65 acre.

Trust to Nature.

A great many Americans, both men and women, are thin, pale and puny, with poor circulation, because they have ill-treated their stomachs by hasty eating or too much eating, by consuming alcoholic beverages, or by too close confinement to home, office or factory, and in consequence the stomach must be treated in a natural way before they can rectify their earlier mistakes. The muscles in many such people, in fact in every weary, thin and thin-blooded person, do their work with great difficulty. As a result fatigue comes early, is extreme and lasts long. The demand for nutritive aid is ahead of the supply. To insure perfect health every tissue, bone, nerve and muscle should take from the blood certain materials necessary to return to normal. It is necessary to prepare the stomach for the work of taking up from the food what is necessary to make good, rich, red blood. We must go to Nature for the remedy. There were certain roots known to the Indians of this country before the advent of the whites which later came to the knowledge of the settlers and which are now growing rapidly in professional favor for the cure of obstinate stomach and liver troubles. These are found to be safe and yet certain in their cleansing and invigorating effect upon the stomach, liver and blood. These are: Golden Seal root, Queen's root, Stone root, Bloodroot, Mandrake root. Then there is Black Cherry bark. The medicinal principles residing in these antiseptic roots when extracted with glycerine as a solvent make the most reliable and efficient stomach tonic and liver invigorator, when combined in just the right proportions, as in Dr. Pierce's Golden Medical Discovery. Here there is no laxative action—such as nervous exhaustion, bad nutrition—and thin blood, the body acquires vigor and the nerves, blood and all the tissues feel the favorable effect of this medicinal discovery. Although some physicians have been aware of the high medicinal value of the above mentioned plants, yet few have used pure glycerine as a solvent and usually the doctors' prescriptions called for the ingredients in varying amounts, with alcohol.

The "Golden Medical Discovery" is a scientific preparation compounded of the glyceric extract of the above mentioned vegetable ingredients and contains no alcohol or harmful habit-forming drugs.

When Wealth Is Odious.

Senator P. H. McCarren has never been regarded as an authority in either ethics or economics, and it is therefore rather refreshing to discover him discussing the question of the distribution of wealth which is both an ethical and economic question. "The time is coming," he says, "when it will be odious to be wealthy."

The Wall Street Journal begs to differ with Senator McCarren. Wealth will never be odious except:

First—When the rich man is criminal.

Second—When he is miserly.

Third—When he displays his wealth too ostentatiously and extravagantly.

Fourth—When he uses his wealth to oppress others, to crush out competition and to bribe his way into political power.

Riches will never be odious as long as the rich man conducts himself like a gentleman; using his wealth aright with becoming hospitality, with intelligent philanthropy and with a due sense of stewardship. —Wall Street Journal.

RHEUMATISM.

Race or Back Pain, Swollen Joints (CURED)

By Botanic Blood Balm (H. B. B.)

There is hope for the most hopeless case of Rheumatism if the sufferer will only take Botanic Blood Balm (H. B. B.). It invigorates the blood, making it pure and rich, and destroying the nettle poison in the blood, which causes the painful symptoms of Rheumatism. Leading Symptoms: Bone aches, aches or shooting pains up and down the leg; aching joints or shoulder blades; swollen joints or swollen muscles; difficulty in moving around; so you have to use crutches; blood thin or skin pale; skin itches and burns; stifling pains; bad breath; swollen limbs; gonorrhea, etc. Botanic Blood Balm (H. B. B.) will remove every symptom, giving quick relief from the first dose, and H. B. B. sends a rich tingling flood of warm, rich, pure blood direct to the paralyzed nerves, bones and joints, giving warmth and strength just where it is needed, and in this way making a perfect, lasting cure of Rheumatism in all its forms. H. B. B. has made thousands of cures of Rheumatism, and doctors have failed to help or cure.

Weak, Inactive Kidneys—One of the causes of Rheumatism is due to inactive kidneys and bladder. H. B. B. strengthens weak kidneys and bladder, draining off all diseased matter and all uric acid, so the urine flows freely and naturally.

Botanic Blood Balm (H. B. B.) is pleasant and safe to take. Thoroughly tested for 20 years. Composed of Pure Botanic Ingredients. Strengthens Weak Stomach, cures Dyspepsia. Price \$1 per large bottle, at drug stores or by express prepaid. Sample free by writing to Botanic Blood Balm Co., Atlanta, Ga. Sold in Philadelphia, Pa., by H. W. Walker & Co. W. J. CHAPTER XVII.

FOR two days the Golden Rod lay becalmed close to Cape la Hague, with the Breton coast extending along the whole of the southern horizon. On the third morning, however, came a sharp breeze, and they drew rapidly away from land until it was but a vague, dim line which blended with the cloud banks.

"I am frightened about my father, Amory," said Adele as they stood together by the shrouds and looked back at the dim cloud upon the horizon which marked the position of that France which they were never to see again.

"What do you mean, Adele? My uncle is hale and hearty, and he will accompany himself to this new life."

"If it only could be so! But I fear, I fear that he is over old for such a change. He says not a word of complaint, but I read upon his face that he is stricken to the heart."

De Catnat was about to suggest that the voyage might restore the merchant's health, when Adele gave a cry of surprise and pointed out over the port quarter.

"Look," she cried. "There is something floating upon the sea. I saw it upon the crest of a wave."

He looked in the direction in which she pointed, but it was so far from him that he could make nothing of it, but sharper eyes than his had caught a glimpse of it. Amos Green had seen the girl point.

"Captain Ephraim," said he, "there's a boat on the starboard quarter."

The New England seaman whipped up his glass.

"Aye, it's a boat," said he, "but an empty one. Maybe it's been washed off from some ship or gone adrift from shore. Put her hard down, Mr. Tomlinson, for it just so happens that I am in need of a boat at present."

Half a minute later the Golden Rod had swung round and was running swiftly down toward the black spot which still bobbed and dived upon the waves. As they neared her they could see that something was projecting over her side.

"It's a man's head!" cried Amos Green.

But Ephraim's grim face grew grimmer. "It's a man's foot," said he. "I think that you had best take the gal below to the cabin."

Amid a solemn hush they ran along the side this lonely craft which hung out so sinister a signal.

She was a little thirteen foot cockle-shell, very broad for her length and so flat in the bottom that she had been meant evidently for river or lake work. Huddled together beneath the seats were three folk, a man in the dress of a respectable artisan, a woman of the same class and a little child about a year old. The boat was half full of water, and the woman and child were stretched with their faces downward, the fair curls of the infant and the dark locks of the mother washing to and fro like water weeds upon the surface. The man lay with a slate colored face, his chin cocking up toward the sky, his eyes turned upward to the whites and his mouth wide open, showing a leathern crinkled tongue like a rotting leaf. In the bows, all huddled in a heap and with a single paddle still grasped in his hand, there crouched a very small man clad in black, an open book lying across his face and one stiff leg jutting upward, with the heel of the foot resting between the rowlocks.

A boat had been lowered by the Golden Rod, and the unfortunate were soon conveyed upon deck. No particle of either food or drink was to be found or anything save the single paddle and the open Bible, which lay across the small man's face. Man, woman and child had all been dead a day at the least, and so, with the short prayers used upon the sea, they were hurried from the vessel's side. The small man had at first seemed also to be lifeless, but Amos had detected some slight flutter of his heart, and the faintest trace was left upon the watch glass which was held before his mouth. Wrapped in a dry blanket, he was laid beside the mast, and the mate forced a few drops of rum every few minutes from his lips until the little speck of life which still lingered in him might be fanned to a flame. Meanwhile Ephraim Savage had ordered up the two prisoners whom he had entrapped at Honfleur.

"Very sorry, captain," said the seaman, "but either you had to come with us, d'ye see, or we had to stay with you. They're waiting for me over at Boston, and so in truth I couldn't tarry. Which would you prefer, to go on with us to America or to go back to France?"

"Back to France, if I can find my way, if only to have a word with that fool of a gunner."

"Well, we emptied a bucketful of water over his livestock and priming, d'ye see, so maybe he did all he could. But there's France, where that thickening is, over yonder."

"I see it; I see it! Ah, if my feet were only upon it once more!" "There is a boat beside us, and you may take it."

"My God, what happiness! Corporal Lenoline, the boat! Let us push off at once!"

"But you need a few things first. Good Lord, who ever heard of a man pushing off like that? Mr. Tomlinson, just sling a keg of water and a barrel of meat and of biscuit into this boat. Hiram Jefferson, bring two oars aft. It's a long pull with the wind in your teeth, but you'll be there by tomorrow night, and the weather is set fair."

The two Frenchmen were soon provided with all that they were likely to require and pushed off with a waving of hats and a shouting of "Bon voyage!" The yard was swung round again, and the Golden Rod turned her bowsprit for the west.

But while these things had been done the senseless man beneath the mast had twitched his eyelids, had drawn a little gasping breath and then finally had opened his eyes. Old Catnat had come upon deck, and at the sight of the man and of his dress he had run forward and had raised his head reverently.

"He is one of the faithful," he cried. "He is one of our pastors. Ah! Now indeed a blessing will be upon our journey!"

But the man smiled gently and shook his head. "I fear that I may not come."

Kneeling hand in hand before the dying pastor.

"This journey with you," said he, "for the Lord has called me upon a farther journey of my own. I have had my summons, and I am ready. I am lured when we heard the orders of the wicked king I and two of the faithful, with their little oar, put forth in the hope that we might come to England. But on the first day there came a wave which swept away one of our oars and all that was in the boat our bread, our keg, and we were left with no hope save in him. And then he began to call us to him, one at a time, first the child and then the woman and then the man, until I only am left, though I feel that my own time is not long. But, since ye are also of the faithful, may I not serve you in my way before I go?"

The merchant shook his head, and then suddenly a thought flashed upon him, and he ran, with joy upon his face, and whispered eagerly to Amos Green. Amos laughed and strode across to the captain.

"It's time," said Ephraim Savage grimly.

Then the whisperers went to De Catnat. He sprang to the air, and his eyes shone with delight. And then they went down to Adele in her cabin, and she started and blushed and turned her sweet face away and patted her hair with her hands as woman will when a sudden call is made upon her. And so, since haste was needed and since even then upon the lonely sea there was one coming who might at any moment snap their purpose, they found themselves in a few minutes—this gallant man and this pure woman—kneeling hand in hand before the dying pastor, who raised his thin arm feebly in benediction as he muttered the words which should make them forever one.

Ere the stars had waned again one more toller had found rest aboard of the Golden Rod, and the scattered flock from Islay had found their pastor once more.

RAILROAD DEALS UNDER THE LIGHT

Deferred Announcement of Coming Dividends

Promises of More Substantial Testimony Are Given Before the Commission.

MEETING IN CHICAGO NEXT.

New York, Jan. 7.—Interesting light was thrown at the interstate commerce commission's inquiry into the Harriman railroads on the deferred announcement of increased Southern and Union Pacific dividends, which was not made public until certain insiders had had time to make purchases of stock which afterward rose in value and netted them a profit of millions of dollars.

These revelations, according to a man high up in the railroad world, are but forerunners of greater sensations to come. One of these, he declares, will be the inside story of how Harriman and his associates induced the Union Pacific to pay \$175 a share for 195,000 shares of Illinois Central stock which they had purchased at a much lower figure without putting up a dollar of their own money. The profit of Harriman and one or two of his associates in this deal alone is estimated at \$10,000,000.

Meet Next in Chicago.

The testimony concluded the present session in this city. The commission will meet in Chicago Tuesday at 10 a. m. and will renew the inquiry into the operation of the four western roads which Harriman holds in the hollow of his hand.

In regard to the delay in announcing increased dividends of the two big roads it was shown that the action was taken at the suggestion of Mr. Harriman who explained that he thought all the directors should be notified before public announcement was made.

At the conclusion of the session, which was productive of many surprises and unending proof that Mr. Harriman is the absolute master of the Union Pacific and affiliated corporations, announcement was made that William Rockefeller had been subpoenaed to appear at the next meeting in New York of the interstate commerce commission.

Stock Deal Under Fire.

He will be asked to give details of a transaction in Southern Pacific stock, in which, through the purchase from and resale of the Union Pacific at the same price, he reaped a profit of \$187,000. The facts concerning this transaction were revealed for the first time today, and were regarded as among the most important developments of the inquiry.

"We have had a subpoena server after Mr. Rockefeller for two days," said Frank B. Kellogg, chief investigator for the government, "and we find that he is ill in the country. He will be here at the next sitting of the commission, however. He and Mr. Harriman will probably be the only further witnesses we shall examine in New York."

Members of the commission will start for Chicago tomorrow on the twentieth century limited. From Chicago they will go west, and it may be two or three weeks before they get back to New York.

Big Deals Are Shown.

Evidence was introduced showing that during the panic of March, 1903, Mr. Harriman borrowed nearly \$6,000,000 from various New York City banks and lent to the Union Pacific \$9,000,000 on demand notes with no collateral. To other railroads he lent nearly a million dollars with no collateral.

millions of dollars' worth of stocks in street car and lighting companies in Salt Lake City and Los Angeles was brought out. Efforts were made to show that Mr. Harriman had used a vast sum of which no accurate record was made for speculation in railroad stocks, but nothing to support such a theory was brought out.

Efforts were made also to trace the so-called "missing" \$100,000,000 bond issue of 1901, but this was not altogether successful.

Greatest Power in Nulton.

The investigators are exerting all their efforts to show that Mr. Harriman sways a power vaster than any other one person in America, and that he holds the control of all his great corporations in the hollow of his hand. It was through Alexander Millar, secretary of the Harriman corporations, who had the private records of the companies beside him, that Mr. Kellogg brought out the details of the deferred announcement of dividends. It was shown that at a meeting of the board of directors of the Union Pacific held on August 15, 1906, a resolution was presented by Mr. Harriman, chairman of the board, providing for a semi-annual dividend of \$2 a share to be declared on preferred stock to stockholders of record.

A second resolution was presented providing for a dividend of \$5 a share on common stock, to be distributed on October 1. Reading from the record Mr. Millar said: "Mr. Harriman said that as all the directors could not attend the meeting, he thought announcement of the dividend should be deferred until they could learn of it. He suggested that the matter be referred to the executive committee for such action as that committee deemed advisable." Acting upon Mr. Harriman's advice the directors put the whole matter over to the executive committee, a meeting of which was held on the following day, August 16.

RIVER TEN MILES WIDE IN PLACES

Evansville Reports Danger Line Under Water

Steamboats Go Through Cornfields and Farmers Suffer Heavy Losses.

ISLANDERS ARE IN DANGER

Evansville, Ind., Jan. 7.—The Ohio river in places between this city and Cairo, Ill., is ten miles wide. Steamboats run through cornfields in making their trips up and down the river. One can stand on the levee here and see miles and miles of overflowed lands in Kentucky. The river continues to rise here at the rate of nearly an inch an hour, and stands at 39 feet at 9 o'clock last night. It is expected that the rise will continue for three or four days.

Henry and George Mann, prominent Kentucky farmers, living directly opposite this city, were here all day trying to get towboats to remove their crops and 15,000 bushels of corn which they said would be entirely lost if the river went much higher.

Farmers in many localities have been unable to gather their corn crop owing to lack of laborers. Below here there are great quantities of corn in cribs that the water is covering.

Numerous families on both sides of the river are living in the upper stories of their homes. Their stock is stored in barns and sheds built on mounds.

Waterworks Surrounded.
The waterworks plant above this city was surrounded by water today and its employees are forced to come and go in skiffs. The coal supply is low, and it will be necessary to tow fuel out to the plant. The towboat J. B. A. made a trip around the waterworks today.

Reports received today from points along Green river say that stream is rising rapidly. It is feared the government locks at Spottsville and other places will be badly damaged. Thousands of logs are coming out of Green river today, and loggers continue to reap a harvest in catching them. Many landings along Green river are submerged, and boats can make no landings.

Rough and Pond rivers, tributaries of Green river, continue to rise rapidly. River men here say another rise will bring a flood as great as that of 1884. Reports today show that the Wabash river is overflowing thousands of acres of wheat and corn and the loss will be the greatest since the flood of 1884. The river is several miles wide below New Harmony.

Coal Supply Cut Off.
A dispatch from Hazelton, Ind., states that White river will continue to rise for two or three days yet. An effort is being made to save corn in the lowlands. Patoka river is also doing extensive damage. Steamboats arriving from down the river say many

persons are being rescued from the lowlands had taken to towns in Southern Illinois. As many of the towns are partly under water, it will be several days before they will receive any mail. In many places the coal supply is cut off and people are forced to gather driftwood and burn it.

Several large islands in the Wabash river on which hundreds of families live, are submerged and the towboat Bernice today rescued many persons from house tops and several hundred cattle. The persons remaining on the islands are in the second stories of houses on higher grounds. The sight of hogs and chickens on top of hay stacks coming down the White and Wabash rivers was witnessed more than once today. The Little Wabash river is also overflowed and the damage reported along that stream in Southern Illinois is heavy.

It is expected that the Ohio river will pass the 40-foot mark by 9 o'clock Monday morning.

SARDONIC HEALTH HINTS.

Never get cold feet, especially in politics.

For palpitation of the heart, quit reading market quotations.

A good way to treat appendicitis is to cut out the surgeon.

Avoid late hours; when the clock strikes twenty-three it is time to go to bed.

Maladies which fail to respond to any other treatment should be treated with silent contempt.

Remember that care killed a cat, and the man who has no more than nine lives cannot afford to worry.

Nose-bleed is frequently caused by not minding your own business.

It may be cured by calling the police and diving into the nearest drug store.

If you are fat, get thin; if thin, get fat. Nature never meant for you to be satisfied with your weight.

A bee sting is good for rheumatism and therefore those who have hives are seldom troubled with sciatica at the same time.

Drink plenty of water, some of the clearer varieties being preferable; that which you get from the milkman may contain bacilli.

For hay fever take large doses of poison in rapid succession until relieved. Those who have tried this sterling remedy have never complained of the same trouble afterward.

Physicians say that laughter is an aid to digestion. Therefore, be mirthful; the more the merrier. Young men should grin and young girls should giggle as much as possible.

You may be thought silly, and this will occasion some concern on the part of your friends, but they will not be surprised.

Walk four miles every morning, as soon as you are dressed—not before. Returning, breakfast upon a small dish of evaporated bran and skimmed milk, and a cup of imitation coffee with condensed cream. This is a wonderful flesh reducer and is said to stimulate the digestive apparatus immeasurably. It will make you a child again, and so whets the appetite that within 30 seconds you will feel as if you never ate a thing in your life.—Thomas Speed Mosby, in the January Bohemian.

No prediction of the probable highest stage of the river here in the present rise can be made from comparison with former years, for January in the last six years has not witnessed a similar rise, the highest stage in any of those six years not being over thirty feet. In 1899 we had a similar situation when the river here was at a stage of 36.6. In 1898, however, the river rose higher than it probably will now, with a stage of 43.8. The upper Tennessee is falling but the upper Ohio as yet shows little change, and the probability of more rain makes it uncertain what the river will go to before a fall starts in.

The stage this morning was 38.3 a rise of 2.3 for 49 hours, and of .9 for the last 24 hours.

An unintentional impression given out has been that the marine ways here were nearing a suspension of operations from the high water. At present the full force is employed and more caulkers and carpenters are needed. The Clyde is stripped and this morning the T. H. Davis was taken out. It is extremely improbable that the present rise will interfere greatly in the operations there. The Dick Fowler was let off Saturday afternoon and passed inspection with flying colors. The river around the ways looks like an ocean shipyard from the large number of boats there awaiting their turns for repairs. The Chattanooga was sent to Mound City from the ways here to get repairs before its turn would have come, but has not been taken out there yet.

It looked good to see the Dick Fowler at the wharf this morning loading to leave for Cairo. The first trip in two weeks was a good one.

The Spread Eagle left yesterday for Jeffersonville to bring the new Alton Eagle from Howard's. The machinery will be placed on the Alton Eagle here.
